MCNC’s Managed Endpoint Protection service is built to solve your toughest cybersecurity challenges.

**FULLY MANAGED**
Streamline cybersecurity with MCNC’s 24/7/365 service, powered by CrowdStrike’s industry-leading platform.

**HIGH-VOLUME CAPACITY**
Process, correlate, and analyze more than 5 trillion security events per week.

**ENHANCED DETECTION & PROTECTION**
Investigate petabytes of historical data and leverage capabilities that far exceed what other existing analysis platforms offer.

**EASY TO OPERATE**
Consolidate systems into a single lightweight agent that’s simpler to manage.

**PLATFORM AND DEVICE AGNOSTIC**
Protect endpoints across all operating platforms, VMware, VDI endpoints, data center servers, virtual machines, and cloud platforms.

**LOWER TOTAL COST OF OWNERSHIP**
Save with zero hardware or footprint requirements, and no maintenance or lifecycle management costs.

MCNC’s Managed Endpoint Protection service is powered by CrowdStrike’s Falcon Platform that continuously ingests and contextualizes real-time analytics by correlating across trillions of events. With this platform we can investigate and hunt for threats happening in your environment and accelerate the response time.

CrowdStrike is recognized as a Leader and the top-placing security vendor for Completeness of Vision in Gartner’s 2021 Magic Quadrant for Endpoint Protection Platforms.
