The Situation

Cyber threats are relentless and more sophisticated every day

Every org has A LOT to keep up with to stay protected

Most orgs end up without the cyber protections they need

These protections are complex and expensive
Managed Endpoint Protection

MCNC’s Managed Endpoint Protection service is built to solve your toughest cybersecurity challenges.

- **24/7/365 Protection**
- **Fully Managed**
- **Detect, Investigate, Respond**

CrowdStrike Modules

NEXT-GEN AV
FALCON PREVENT

BUSINESS VALUE

- Improves protection
- Reduces number of incidents
- Improves user productivity – no user impact
- Reduces complexity
- Delivers security efficiency and efficacy
ENDPOINT DETECTION AND RESPONSE
FALCON INSIGHT

BUSINESS VALUE
- Reduce time-to-respond
- Improve SOC productivity
- Reduced time to remediation
- Augment skills and expertise
- Reduce risk
- Gain security efficiency and efficacy

CrowdStrike Modules

Real-time and Historical Search
Record Everything
Real-time Response and Containment
Threat Hunting
VULNERABILITY MANAGEMENT
FALCON SPOTLIGHT

BUSINESS VALUE

- Fast and Effective Vulnerability Management
- Holistic Protection
- Simplicity
- Timely Knowledge, On-Demand
- Zero Impact
BUSINESS VALUE

Reduce cost of endpoint inspections

Eliminate burden of unmanaged assets

Reduce licensing costs

Minimize risk associated with rogue users, apps, and systems
Managed Endpoint Protection

Security Operations
Monitoring & Response

Advanced Security Protection

- Next-Gen Malware Protection
- Detect and stop malicious content and behavior
- Real-time threat hunting
- Real-time monitoring, response, and containment

Device Cyber Hygiene

- Software & firmware inventory
- Privileged account monitoring
- Application usage
- Vulnerability detection
CrowdStrike Overwatch

OVERWATCH

- Dedicated Threat Hunters
- 24/7/365 Global Operations
- Threat Graph Telemetry
- Actionable Intelligence

Why Managed Endpoint Protection?

MCNC’s Managed Endpoint Protection service combines the cloud, next-gen antivirus, and advanced AI, backed by MCNC’s team of cyber experts and in collaboration with global cybersecurity leader CrowdStrike®. As a technology leader with a pulse on North Carolina’s most critical organizations, we created this service to better serve our clients and their unique needs.

**FULLY MANAGED**
Streamline cybersecurity with MCNC’s 24/7/365 service, powered by CrowdStrike’s industry-leading platform.

**HIGH-VOLUME CAPACITY**
Process, correlate, and analyze more than 5 trillion security events per week.

**ENHANCED DETECTION & PROTECTION**
Investigate petabytes of historical data and leverage capabilities that far exceed what other existing analysis platforms offer.

**EASY TO OPERATE**
Consolidate systems into a single lightweight agent that’s simpler to manage.

**PLATFORM AND DEVICE AGNOSTIC**
Protect endpoints across all operating platforms, VMware, VDI endpoints, data center servers, virtual machines, and cloud platforms.

**LOWER TOTAL COST OF OWNERSHIP**
Save with zero hardware or footprint requirements, and no maintenance or lifecycle management costs.
Why Managed Endpoint Protection?

**VITAL CYBER**

- Deep understanding of MCNC’s community in NC
- Ensure all in our community are protected when threats identified
- Long history of service excellence

**CROWDSTRIKE**

- Best-in-class technology & protection solution
- Latest security intelligence to stay ahead of cyber threats
- Resources of a global cybersecurity leader
- Strategic vision & resources for the future of cybersecurity protection
Managed Endpoint Protection

MCNC’s Managed Endpoint Protection service is built to solve your toughest cybersecurity challenges.
